their interest in the service. Their addresses will be kept on the.

Although the service of the Virginia Nolunteers shows marked improvement, not only in equipment, but in money available, the State Military Board could put it where it would go a long way toward making the military forces of the State what they

Perhaps first and foremost is the matter of rifle ranges. Prior to the War Between the States most Virginians could shoot, and shoot straight. The frontier life of Colonial days de-veloped knowledge of the use of the gun, which was supplemented by the Colonial wars and later by the national conflicts

Should another war come now it would find a nation not equipped to do execution on the enemy. There is a crying need in the service for trained riflemen. The only way to develop them is to give them places must be organized. The work of both which they may practice-rifle

put in operation, will be only a partial one. It will, of course, help in many ways. For instance, it was present. After March 1 the office of necessary to send forty-two men instead of a team of eighteen to Camp be added, making the duties more Perry for the national rifle shoot last laborious. Perry for the national rine shout have year, solely because there was no year.

But local ranges are also necessary, will be the policy of the Military Board to encourage in every possible ment of ranges wherever a military company is located, so that the men may practice rifle shooting and be ready to compete in State matches on the State range. It is only a question of money, and perhaps within a few years the board can manage it. Wants an Arsenal.

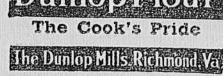

The State badly needs an arsenal. At esent there is nothing but a storage room under the offices of the Second Auditor and the State Treasurer, in the State Library building. It is so dark that artificial light must be used, and so damp that it is not a fit place for This storage-room is inaccessible for

wagons, and the property is loaded and inloaded by a hand elevator through a the spot, four horses are required to haul a two-horse wagon load of sup-No place exists where tents may be dried if they are returned in a damp

helt, there has been an expense of rom \$200 to \$250.

But for the public spirit and patriot sm among the clucers of the service, t would be impossible to get men to

Armories constitute a most urgent nced of the service. Nearly all the States assist the local authorities in mands. Because of the lack of reem and facilities, in some towns the men ake their military property home with hem, and naturally, in some cases not the best care is taken of it.

Under the law of the State now, city and town Councils and county boards of supervisors may appropriate local funds to atd in the construction of armories, and the Military Board will supplement this from State funds so far as it possibly can.

out for local public spirit, the cities and towns of the State would have no armories. In Richmond, the city has been most liberal, and with its help three armories have been built, one of them costing \$125,000, without cost to Virginia.

Proposed Departments.

In addition, the time must come when and a commissary-general's department is now done by the Adjutant-General's Could Not Practice.

The remedy in the shape of a State rifle range, which it is hoped to soon the amount of work which falls upon it the amount of work which falls upon it the amount of work which falls upon it the amount of work which falls upon it.

charge of these departments. Need Field Hospital.

A field hospital is necessary and will no doubt soon be secured. Its lack has been especially noticeable at necessary to send sick men to the United States hospitals. Besides separation from command, this causes additional

The field hospital will consist of a minimum strength of three sergeants of the first class, six sergeants and twenty-four privates, a total of thirty-three enlisted men. They would be in charge of five officers of the Medical Corps, one major and four captains as surgeons and assistant surgeons, respectively.

for patients and the necessary tentage and medical and other supplies.

It is possible that the money for rate fund in the hands of the War

Department. Company of Signalmen.

Another need is a signal corps. It tions of the State, who could be gotten signal corps would consist of one cap geants of the first class, five sergeants ten corporals, two cooks, eighteen privates of the first class and eighteen privates; total, sixty-one officers and enlisted men. It is necessary that at least two-thirds of these be expert telegraphers and electricians.

The equipment of a signal company consists of a visual signal outfit, teleplione outfit for field lines and the usual clothing, arms and equipment. Text-Books.

Text-books for the instruction of officers and men in all branches are

much wanted. Then there should be personal conveniences for the use of the men in eamps or on active duty. Each man should have an extra suit of khaki, so that he could keep clean by having a suit washed. There should be cases of toilet articles to use in camp. The field artillery ought to be sup-

olled with horses to insure proper drill and handling of the guns. The present appropriation is insufficient to permit the purchase of animals. It is admitted to reach the proper stage of efficiency without being able to drill with horses. They will be supplied as soon as the funds justify.

Choice of Adjutant-General.

In a review of military matters in Virginia, the circumstances of the ap pointment of adjutant-general will probably be of interest. When it be ame known that Adjutant-General Charles J. Anderson would not be andidate for reappointment, Governorsleet Mann asked the military men of the State to suggest to him a suitable man for the position. After consulta-tion, a majority of the officers decided o ask for the appointment of Senator W. W. Sale, of Norfolk. He at first declined, but finally yielded to their importunities. Then, with their orsement, the name was presented to Judge Mann, who announced the ap-

Although the service needs many things to make it of the highest ef iclency, the operations of the Dick oill have rendered it a well organized and equipped and officered force. On wenty-four hours of notice, the State can put into the field three full regi ments of infantry, properly equipped. In addition there would be available three batteries of field artiflery, of which Virginia certainly would not ashamed, and four companies of coast artillery could be put into Fort Monroe for service.

there would be available three batteries of field artillery, of which Virginia certainly would not be ashamed, and four companies of coast artillery could be put into Fort Monroe for tervice.
